BIOGRAPHY

William Howard

Assistant Director – Vero Beach Regional Airport

William Howard is the Assistant Director at Vero Beach Regional Airport. William brings with him a love for the aerospace and aviation industries, a graduate degree in business administration and an understanding of the airport as an epicenter for the community's job opportunities.

In the fall of 2014, Mr. Howard began his graduate program at Embry-Riddle Aeronautical University where he earned a Master's in Business Administration. While active in the graduate program, William engaged in an internship at Vero Beach Municipal Airport prior to the establishment of airline service and its name change to Regional. While an intern, he worked to optimize the Airport's Minimum Standards for aeronautical properties. At Embry-Riddle, William participated in several campus organizations such as Unmanned Aircraft Systems Technology, Medical Emergency Disaster Relief, and WIKD 102.5FM. After graduation, he worked part-time at the Airport as a Terminal Attendant until moving to California for full time employment as a management consultant for restaurants. Although the employment opportunity in California was an excellent experience, William found himself missing the aviation industry.

Shortly after returning to Vero Beach in 2018, he began his career as the Operations Manager for the Airport handling airport security, project management, capital planning and public relations. As of 2019, William has been promoted to Assistant Director. Still handling the aforementioned topics with several others, for good measure, Mr. Howard is lead on marketing/advertising, economic development, commercial leasing, among other processes of running an Airport. Prior to February of 2023, William helped write the security program that enabled Breeze Airways to conduct their inaugural operations out of Vero Beach Regional Airport. If you are interested in commercial leasing, economic development, marketing, security or the other aforementioned items at Vero Beach Regional Airport, please contact Mr. Howard with the information below.
